FINANCIAL WOES BESET ULTIMATE CLUB

TEMPE - The ultimate club is currently in the throes of a financial crisis, i.e., we're low on dough. Various club members' contributions toward the putting on of the annual New Year's Fest have as of yet gone unreimbursed due to lack of funds. Also, the club was presented a bill of \$200.00 for carpet cleaning by the party facility. Further, pitch money for lights did not cover the cost of the lights for the 2 weeks prior to press time.

Solutions include: any persons who played in the New Year's Fest who have not paid their entry fee, or have not paid for shirts or discs that they took, need to settle their accounts - see Paul; **all players need to be diligent in their contributions for lights** (the standard contribution is \$2 per night, but every little bit helps); lastly, Kevin Hatch is instituting a program of aluminum can recycling for the club's benefit. All players are henceforth asked to bring their spent aluminum cans (please crush them) to practice; or bring full cans and let's empty them. Kevin will collect the cans and take them to the recycling center for big bucks. This may require a sacrifice on the part of some of you purist beer drinkers, but consider buying your beer in cans for the benefit of the club (you may receive some good karma also, no guarantees). Of course, subsistence can collectors are exempt. Any other ideas? Speak up! 🐼

CENTEX IS HERE

AUSTIN - Centex is upon us. It looks like the club will be sending both a men's and a women's team to this prestigious (in Texas) gathering. The dates of the tournament are Feb. 25 & 26. The good deal appears to be on Southwest Airlines - using a buddy pass roundtrip airfare to Austin can be as little as \$69. The only catch is you must buy a Whopper. So eat hardy and we'll see you in Austin. 🐼

SAN DIEGO TOURNEY LOOMS

SAN DIEGO - Mar. 11 & 12 a tournament will be held in San Diego. Southwest Airlines buddy passes will still be valid so make your reservations early. Overall support for this tournament seems to be fairly weak, but let's see if we can pull a team together for this one. 🐼

LEAGUE MAY START UP

TEMPE - Talk was heard at a recent practice of an ultimate league possibly starting up locally. All this reporter has to say about that is YESSSS! Byron is the dude on this, so let's get behind him and make it happen. Volunteers and enthusiasts are in demand. 🐼
